## 1,036 sq ft Video Production Space

Milwaukee's newest production studio is versatile, green screen ready, acoustically treated and has a full lighting grid. This is a perfect sound stage for companies or independent productions.

**DESIGNED AS A SOUND STAGE** - Acoustical tiles cover the ceiling and most of the walls, double wall construction, floating floor, and multi-layer drywall and acoustical insulation to isolate airborne sound and structural vibration, creating superior low-frequency isolation.

Located on the 2<sup>nd</sup> floor of the Technology Building inside DISCOVERY WORLD at Pier Wisconsin.
