

PIRANHA PALS

Artist: Matt Callahan

Follow these simple steps to make a pair of piranhas!

1. Punch out the the piranha pieces and make sure to clear all the slots.
2. Fold the top and bottom pieces in half to make a crease.
3. Place the bottom piece inside the top piece. Slide the fins on the bottom piece through the side slots on the inside of the top piece.
4. Pinch the tail together and slide the smaller tail fins through the slots on the larger tail fin.
5. Repeat with the other pieces to make the second piranha.
6. Congratulations! You made piranhas! Hold the tail and move the dorsal fin back and forth to make them chomp!
