## Directions

- 1 Trace the templates individually and mark a dot on the center of the largest layer, this will be the bottom layer. Cut all templates.
- 2 On the bottom layer, cut a slit from the edge of the petal to the middle spot marked with a dot.
- 3 You may curl the outside edges of your petals by rolling them over a pencil.
- 4 Wrap each piece into a cone shape, overlap the first and last petal and glue into place.
- 5 Place a dot of glue on each of the cone tips, layer each cone shape inside each other from smallest to largest.

## Tools/Materials

 Pencil  
 Flower Template  
 Scissors  
 Glue

 Recycled Paper

TRACE AND CUT OUT
